

Precautions

Location

Using the unit in the following locations can result in a malfunction.

- Locations of extreme temperature or humidity
- Excessively dusty or dirty locations
- Locations of excessive vibration
- Close to magnetic fields

Power supply

Be sure to turn the power OFF when the unit is not in use.

Interference with other electrical devices

Radios and televisions placed nearby may experience reception interference. Operate this unit at a suitable distance from radios and televisions.

Handling

To avoid breakage, do not apply excessive force to the switches or controls.

Care

If the exterior becomes dirty, wipe it with a clean, dry cloth. Do not use liquid cleaners such as benzene or thinner, or cleaning compounds of flammable polishes.

Keeping foreign matter out of your equipment

Never set any container with liquid in it near this equipment. If liquid gets into the equipment, it could cause a breakdown, fire, or electrical shock. Be careful not to let metal objects get into the equipment.

Keep this manual

After reading this manual, please keep it for later reference.

Panel Controls

ATTENTION: IN ORDER TO COMPLETE THE CHARGING PROCESS IN THE SHORTEST TIME, PLEASE USE THE 5V=2A ADAPTER FOR CHARGING!

- 1. VOLUME(GUITAR).....control guitar volume
- 2. BASS(GUITAR).....control guitar low frequency tone
- 3. TREBLE(GUITAR).....control guitar high frequency tone
- 4. VOLUME(MIC).....control microphone volume
- 5. ECHO(MIC).....control microphone echo level
- 6. MASTER.....control master volume of guitar and mic
- 7. LED.....amp work condition light
(blue color, details at Table)
- 8. BT.....blue tooth switch
- 9. POWER.....switch power On/Off
- 10. LED.....power recharging condition light
(red color, details at Table)
- 11. MicroUSB.....power recharging jack for USB cable(5V=2A)
- 12. MIC INPUT.....microphone cable input jack
- 13. GUITAR INPUT.....guitar cable input jack

Table

| | Work condition | Blue LED indicator | Red LED indicator |
|----------------------|---------------------|--|-------------------|
| Power On | Power more than 30% | Light On | / |
| | Power less than 30% | Light flashes fast | / |
| | Power less than 5% | Light flashes extremely and Power Off in 3 seconds | / |
| Bluetooth On | Playing | Light flashes slowly | / |
| | Pause playback | Light On | / |
| Recharging condition | Recharging duration | / | Light On |
| | Recharging full | / | Light Off |

Use Tip: During power recharging, the amp is Off automatically and not for use.

Amp Features

1. Rechargeable Li battery inside, to enjoy music and playing anywhere any time.
2. High performance of original guitar sound.
3. Specific speaker and cabinet design for acoustic guitars and human voice.
4. With functions of bluetooth and microphone input to enjoy the fun of playing guitar, singing with background music in the same time.

5. Adaption of class D amplifier to use the most efficiency of battery, and micro USB recharging method makes it much easier to recharge simply via a cell phone adapter or a portable battery without extra wall power adapter.

How to Use Guitar Function

1. Turn power ON, the indicator light is lit a color, which differs to different power level.
2. Link your acoustic guitar by a cable to GUITAR INPUT socket.
3. Adjust Guitar Volume, Bass and Treble knobs and Master knob to get a suitable volume and tone output.

How to Use Mic Function

1. Link your moving coil microphone cable to MIC INPUT socket.
2. Adjust Mic Volume knob and MASTER knob to get a comfortable volume.
3. Adjust ECHO knob to get a satisfied echo effect.

Product Parameter

Channel 1 (guitar)
Input socket: 6.35mm gauge jack x 1
Input impedance: 10Kohm
EQ: bass, treble
Volume control

Channel 2 (mic)
Input socket: 6.35mm gauge jack x 1
Input impedance: 1Kohm
Echo control
Volume control

Battery: 7.4V / 2200mAh Li-battery
Battery life: $\geq 5H$ (90% volume level)
Recharge duration: $< 3H$ (2A)

Rated power: 10W
Peak power: 15W
Speaker: 5 inch, full range, 20W x 1;
Recharge socket: Micro USB 5V=2A

Specifications

Net weight: 2.1kg
Gross weight: 2.5kg
Dimension: 215x156.5x153.5mm
Package size: 262x200x205mm
Package Contents: AG-15A amp, handle x1, micro USB cable x1, operation manual.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which thereceiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
